New Partnership brings benefits to members

We started the year with a new partnership with Faust language school, which brings discounts for Almargem members who have regularized quotas. The **Institute of Languages and Culture - Faust** stands out for its practical teaching of foreign languages. Teachers are qualified and native speakers and the teaching is focused on communication. The school offers courses in German, Spanish, French, English, Italian, Portuguese and Russian in various formats and levels (www.faust.pt).

Faust offers a **20,00€ discount** on the first payment, on any course. To take advantage of the discount, you must show the receipt for the payment of the current year's quota. Check out the [Almargem website](http://www.almargem.org) to find out about all the benefits for members.

Next Activities February

#AÚltimaGota_Algarve reaches schools

The #AÚltimaGota_Algarve project continues to raise awareness of the conscious use of water.

The Loulé Environmental Center has taken a fun game based on the project to schools in the municipality, which alerts children to the importance of water and indicates behaviors that we can all adopt in order to preserve this precious resource.

Follow the [Loulé Environmental Center's Facebook page](#) to stay up to date with all the activities carried out.

Until June 30, don't miss the exhibition #AÚltimaGota_Algarve, on display at the Municipal Library of Silves.

Via Algarviana launches a new route

The Via Algarviana gained a new route in the municipality of Alcoutim, **Connection 8 - Vaqueiros to Martim Longo**, with 18.7 km. The route passes through one of the best preserved streams in the Algarve, Ribeira da Foupana. The rich vegetation of this watercourse is one of the highlights of this trail, which crosses holm oak groves and small villages, going up and down hills. Find out all the details of the route on the [Via Algarviana website](#).
