Via Algarviana provides Joelette chair

We want more and more people with reduced mobility to enjoy the physical and mental benefits of hiking in the Via Algarviana territory and experience the beauty of these natural spaces. With that in mind, Almargem, the managing entity of Via Algarviana, purchased a **Joelette**, a **single wheel all-terrain chair** created for adapted tourism. This chair can be used by children or adults who have the help of at least two companions and is available free of charge for individuals, institutions and tourist companies, upon request, to explore the Via Algarviana routes from May 23rd. See [here](#) how to order the Joelette.

Almargem participates in "Let's go to the village"

On the **27th and 28th of May**, Almargem will be present in Monchique, at the 2nd edition of the event "**Let's go to the village - Show of flavors and knowledge - Traditional sausages and local products**", with a stand to promote the association's projects and sell merchandising.

We are looking for volunteers! If you have a few free hours to support us at our stand, please contact us: almargem@mail.telepac.pt

Almargem members traveled to Baixo Alentejo

Last weekend we resumed our activities for members outside the Algarve. This time we went to **Baixo Alentejo** and, with the support of excellent local guides, we got to know **Beja, Serpa and Moura** better. There was time to walk, visit the historical and cultural heritage of the cities, taste olive oils and wines, take a boat trip and enjoy the delicious Alentejo cuisine. Check [here](#) are some pictures of the weekend.

We look forward to seeing you at the next activities!

Environmental Volunteering in Cadoiço

In April, we received a visit from a **group of students** from the Management School of the University of Lille, France, who helped us for two weeks to **maintain the exotic invasive plants in Ribeira do Cadoiço**. Thank you very much to all! Check [here](#) a video of their excellent work.
