Almargem celebrates 35 years

Congratulations to Almargem! This year it celebrates its 35th anniversary and we couldn't let this date go unnoticed. To celebrate these last years dedicated to the protection of the cultural and natural heritage of the Algarve, we have prepared an **afternoon of activities** for all members, on the **8th of July**.

We will start with a **reflection session on the life of the association**, with the presence of former leaders and collaborators of Almargem. We will then take a short **interpretive walk** along the Cadoiço stream and end the day with a delicious convivial dinner.

Registrations are open until July 5th. See more information [here](#) and sign up [here](#).

Alagoas Brancas are still at risk

A group of various environmental associations, including Almargem, asked the Minister for the Environment and Climate Action, Duarte Cordeiro, to **immediately protect the wetland of Alagoas Brancas**, in the municipality of Lagoa, through the suspension of a commercial undertaking.

Freshwater wetlands in the Algarve are rare and endangered. The situation of Alagoas Brancas deserves all the attention and urgent intervention of the competent authorities in terms of land management and nature conservation with a view to its preservation. Read the full statement [here](#).

If you haven't already done so, [sign the petition](#) that aims to safeguard this important wetland.

Monchique has a new route guide

Monchique has a new guide where you can find out about all the **Via Algarviana walking routes** in that municipality. An excellent company to discover the Monchique mountains.

Request your guide at the **Monchique Tourist Office**.
